HOUSE RULES

- Tutup mikrofon dan video anda sepanjang masa (kecuali ketika moderator membenarkan anda mengajukan soalan).
- Sekiranya anda ingin mengemukakan soalan, sila gunakan fungsi chat.
- Bilangan peserta webinar ini adalah terhad. Sekiranya ada rakan anda tidak dapat meyertai webinar ini, sila minta mereka mengikuti siaran langsung di Facebook KETSA atau saluran Youtube ERE.
- Kita mungkin mengalami gangguan dari masa ke semasa kerana sambungan internet yang lemah. Sekiranya sambungan anda terputus, sila sertai semula menggunakan pautan yang sama.

DASAR KEPELBAGAIAN BIOLOGI KEBANGSAAN 2016 - 2025

**biodiversity is our shared heritage,
it is our shared responsibility**
and it is vital for our well-being and economic growth

**5
GOALS**

**17
TARGETS**

**57
ACTIONS**

GOALS OF THE POLICY

GOAL 1

We have empowered & harnessed the commitment of all stakeholders to conserve biodiversity.

GOAL 2

We have significantly reduced direct and indirect pressures on biodiversity.

GOAL 3

We have safeguarded all our key ecosystems, species and genetic diversity.

GOAL 4

We have ensured that the benefits from utilisation of biodiversity are accrued equitably to all.

GOAL 5

We have improved the capacity, knowledge & skills of all stakeholders to conserve biodiversity.

NATIONAL BIODIVERSITY TARGETS

GOAL 1

Target 1
Increase awareness

Target 2
Increase contributions of **indigenous peoples, local communities, civil society & private sector**

Target 3
Mainstream biodiversity conservation

Target 4
Forestry, agriculture and fisheries are managed and harvested sustainably

Target 5
Tourism is sustainably managed

NATIONAL BIODIVERSITY TARGETS

GOAL 3

Target 6:
Protected areas & other effective area-based conservation measures.

Target 7:
Vulnerable ecosystems & habitats, are adequately protected and restored.

Target 8:
Important terrestrial & marine **ecological corridors** have been restored and protected.

Target 9:
Extinction of known **threatened species** has been.

Target 10:
Poaching, illegal harvesting and illegal trade are under control & significantly reduced.

Target 11:
Invasive alien species controlled & measures are in place to prevent their introduction and establishment

Target 12:
A **biosafety** system is in place to manage adverse impacts of modern biotechnology on biodiversity & human health.

Target 13:
The **agricultural biodiversity** is adequately conserved.

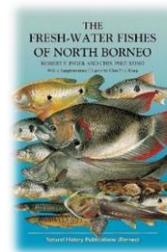

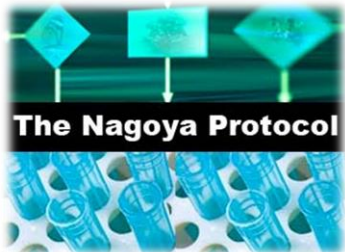

NATIONAL BIODIVERSITY TARGETS

GOAL 4

Target 14

Malaysia has an operational **ABS framework** that is consistent with the Nagoya Protocol

GOAL 5

Target 16

Knowledge and the science base relating to biodiversity are significantly improved and applied.

Target 17

Significant increase in **funds and resources mobilised** for the conservation of biodiversity

DASAR KEPELBAGAIAN BIOLOGI KEBANGSAAN 2016 - 2025
